

I love reading science fiction novels, especially books by Isaac Asimov and Arthur C. Clarke. My favorite book is Foundation, which I have read three times.

On weekends, I enjoy hiking in nearby hills. My favorite trail takes about three hours to complete and has a beautiful viewpoint at the top.

I am also learning to play the guitar. I have been practicing for six months and can now play a few basic chords like G, C, D, and E minor.

My favorite food is homemade pasta with tomato basil sauce. I learned this recipe from my grandmother and I make it almost every Sunday.
